

MAXWELL TEBI

Keta SHTS, Keta | maxwelltebi2@gmail.com | <http://www.linkedin.com/in/maxwelltebi>

EDUCATION

Keta Senior High Technical School- Keta, Volta Region, Ghana

Graduated Sept 2023

High School Diploma in General Science

Relevant Coursework: Elective-Mathematics, Physics, Chemistry, Biology

SKILLS

- **Programming Languages:** Python, CSS, HTML
- **Experience with:** GitHub, Git, VS Code, Figma, Google Analytics, Hootsuite, Insightly, Photoshop, CapCut, FL Studio, Google Workspace, Excel

EXPERIENCE

Front-end Developer, The Art Agora | Ghana

July - Present 2024

- Designed and developed UI/UX components from prototypes, delivering a visually appealing and intuitive platform.
- Ensured responsive design and seamless user experience across multiple devices and screen sizes.
- Developed dynamic and reusable UI/UX components, ensuring responsive design and optimized performance across devices.

ML Intern, Data Hakili | Kumasi, Ghana

March - April 2024

- Performed in-depth exploratory data analysis (EDA) using Excel and Python to identify trends and insights.
- Researched and summarized ML algorithms and tools to aid in team decision-making for project implementation.
- Cleaned and organized large datasets to prepare for machine learning model training.

Social Media and Sales Manager (Remote) | alkeBULANPrints, Maryland, USA

March - Present 2024

- Executed email marketing campaigns and utilized Insightly to nurture leads and close deals.
- Analyzed sales data and identified trends, making actionable predictions and suggestions that increased sales by 5%.
- Developed and executed two-month content strategies, creating engaging posts that boosted audience engagement by approximately 30%.

PROJECTS

Medirevs Start-up | CSS, HTML, Figma, VS Code, Git

- Founded Medirevs, an Electronic Health Record (EHR) system start-up for hospitals in Ghana.
- Spearheaded the development of a user-friendly, interactive front end for Medirevs.
- Collaborated with a team of four developers to design and implement core features, ensuring usability and efficiency.
- Managed code repositories, conducted bug fixes, and optimized workflows using Git.
- Oversaw the deployment process, ensuring seamless integration and functionality of the system.

Research on Telemedicine for Underserved Communities | Python, Excel

- Conducted research on the effective use of shortcodes to initiate telemedicine services in rural areas of Ghana, targeting areas with limited healthcare access.
- Utilized Python and Excel to analyze healthcare access data, identifying key gaps and proposing data-driven solutions.
- Developed actionable strategies for the implementation of other telemedicine platforms, focusing on scalability and affordability.
- Presented findings and recommendations to MTN, showcasing the potential to improve healthcare outreach by over 40%.

Founder and Tutor, Keta Codes | Python, HTML

- Taught 100+ students basic HTML and Python, promoting their interest in technology and programming.
- Organized and facilitated 3 workshops featuring industry experts, which provided students with real-world insights and mentorship opportunities.
- Designed and executed 4 on-campus coding competitions in Keta SHTS, encouraging innovation and teamwork among students.
- Structured a comprehensive club curriculum tailored to beginner-level coders, ensuring an engaging and effective learning experience.
